

Southwestern Community Services, Inc. Head Start Annual Report 2022-2023

Program Overview – Enrollment

Southwestern Community Services Head Start, Inc. (SCS Head Start) serves 170 children and families in the southwestern corner of New Hampshire in both Sullivan and Cheshire Counties. The program provides part-day, part-year services five days a week at six NAEYC-accredited Head Start Centers in two counties. These centers are in *Ashuelot, Claremont, Jaffrey, Keene, Newport, and Swanzey*.

SCS Head Start began offering increased hours of services in the 2017-2018 school year to the 40% of its funded enrollment at *Claremont, Jaffrey, and Newport* centers.

Also, after the grant award received from the Office of Head Start in March of 2019, SCS Head Start provided increased hours of service for 17 children at the **Swanzey center** starting 2019-2020 school year. With this change, SCS Head Start began serving increased hours for 50% of the funded enrollment.

On February 1, 2021, SCS Head Start utilized the Supplemental Covid-19 related funding received to increase the hours of services for the additional 50% of enrolled children, ensuring that 100% of the children received increased hours of services until the end of the 2020-2021 school year, with a commitment to allocate more of the supplemental funding to continue serving 100% of the children with increased hours of services in the 2021-2022 school year. Additionally, we were able to fulfill the same commitment in the 2022-2023 school year.

In addition to increasing annual hours of services to children from 837 to 1023, SCS Head Start utilized some of the Supplemental Covid-19 funding for providing four weeks of Summer School at Ashuelot, Claremont, Jaffrey, Keene, and Swanzey centers open for all three- and four-year-old children in the summer of 2021, extending the 2022 school year by three weeks, also extending the school year by one week in 2023. Next year, SCS Head Start will go back to the program's regular schedule.

SCS Head Start has spent down the \$203,405 by 3/31/2023, the additional Covid 19, One-Time-American Rescue Plan, ARP funding received two years ago.

SCS Head Start COLA (Cost of Living Adjustment) and Quality Funding received \$71,928 COLA and Quality Improvement Funding. It is gratifying to know that here at SCS Head Start, we have been able to focus on our commitment for increasing quality in service delivery for children and families, increasing compensation for staff, and valuing child, family, and staff wellness past three years despite the unprecedented times experienced due to Covid-19 pandemic.

Budget Breakdown for 2022-2023 School Year

Revenues:

HS Grant Funds	\$2,816,157.00
USDA/CACFP Funds	135,000.00
Non-Federal Share	0.00
Donations/Granite State Quality	76,800

Expenditures:

Personnel	\$1,600,565.00
Fringe	430,551.00
Other	463,812.00
Non-Federal Share	0.00
USDA/CACFP Funds	143,899.00
Indirect Cost	298,000.00
T/TA	28,101.00

Total Revenue \$2,964,928.00

\$2,964,928.00

Budget Breakdown for 2023-2024 School Year

Revenues:

Federal Share	\$3,048,503.00
Non- Federal Share	40,000.00
USDA/CACFP Funds	135,000.00
Granite Steps Revenue	76,800.00
TOTAL REVENUE:	\$3,300,303.00

Expenditures:

Personnel	\$1,949,820.00
Fringe	364,403.00
Supplies	24,600.00
Contractual	10,000.00
Other	427,776.00
Indirect Cost	320,603.00
USDA/CACFP Funds	135,000.00
Non- Federal Share	40,000.00
Training and Technical Assistance	28,101.00
TOTAL EXPENSES:	\$3,300,303.00

The total revenue entered above for the 2023-2024 school year, also includes \$204,245, Supplemental Funding for Cost of Leaving Adjustment (COLA) and Quality. SCS Head Start utilized this funding opportunity to increase staff wages to address workforce shortage for

retention and recruitment to ensure that SCS Head Start continues investing in high quality and safe early childhood learning opportunities for children.

Program Highlights

Southwestern Community Services Head Start completed its annual 2022-2023 Self- Assessment on May 8, 2023. Many areas were identified as strengths as well as areas to make quality improvements. SCS Head Start complied with the Head Start Performance Standards.

The following areas are highlights of some exceptional program activities SCS Head Start has been implementing.

I Am Moving I Am Learning (IMIL): In September 2007, all staff were introduced to the IMIL project and were given classroom materials to implement IMIL songs and activities. On March 17th, 2023, all staff participated in a refresher training on IMIL where we focused on brainstorming ways to incorporate more moderate to vigorous physical activity into our daily schedule. All staff left March 17th with a plan to implement IMIL practices into their daily work with children and a plan to share the program with families.

The Child and Adult Care Food Program (CACFP): The Child and Adult Care Food Program (CACFP) is a federal program that provides reimbursements for nutritious meals and snacks to eligible children and adults. SCS Head Start children are provided a free breakfast, lunch, and snacks. CACFP contributes to the wellness, healthy growth, and development of young children and adults in the United States.

Early Sprouts Nutrition and Gardening Program: SCS Head Start began implementing the *Early Sprouts Nutrition and Gardening Program* in three of its centers in 2007. *Early Sprouts* started as a three-year research project developed by Dr. Karrie Kalich at Keene State College to measure the impact of frequent exposure of vegetables on children's eating habits, and on the incidence of childhood obesity. This innovative and intensive program incorporated weekly sensory/science and cooking activities for 22 weeks, focusing on six target vegetables that the children and teachers have planted in raised bed vegetable gardens in the spring. In addition, families receive a take home kit with the target vegetables bi-monthly with a fact sheet, and recipes to prepare the vegetable at home. Currently, SCS Head Start is implementing the *Early Sprouts* curriculum in all ten classrooms of the six Head Start Centers. Annual surveys and parent and teacher feedback showed that this is an effective program that enhances science, math, and literacy, as well as clearly teaching children to enjoy a variety of vegetables.

Child and Family Care System: In response to results of the 2007-2008 Self-Assessment, which showed some gaps in the program's care planning process, SCS Head Start strengthened its Child and Family Care System. This system is a case management approach that ensures that the needs of Head Start children and families are met promptly. Through intensive staff training and management support over the years, all SCS Head Start Centers now utilize this system which includes weekly care planning meetings attended by classroom staff, family advocates, and cooks as needed. Staff use an established referral process through the Child and Family Care

system to immediately identify children and families in need of more intensive support and follow-up to meet their individual needs and maintain a tracking system to monitor progress.

Community Outreach and Collaborations: SCS Head Start, although spread out geographically through six communities, has a unique, strong, and positive presence in each community. The collaborations that the program has established are long-lasting, and they impact not just current Head Start families, but also the communities.

New Hampshire has divided the state into **seven** early childhood regions to enhance connections between early childhood care and education, schools, and family support. The seven regions are working to enhance cross-sector collaboration and alignment to coordinate resources and services. The goal is to strengthen the early childhood system to better support young children (prenatal through age 8) and their families.

Region 1 encompasses the Monadnock region, Greater Sullivan County, and the Upper Valley. Currently, Region 1 is working to determine the assets and gaps within the region to leverage existing strengths and set priorities for moving forward together. We anticipate that as opportunities become available, we will be prepared to respond collaboratively to meet the needs of the children and families of our region. SCS Head Start Education Services Manager participates on the Leadership Team as a representative of Head Start for Region 1.

Keene State College, Colby Sawyer College, Franklin Pierce, River Valley Community College, Granite State, Antioch University New England Graduate School are the areas higher institutions that we collaborate with. We open our classrooms for future teachers, counselors, and registered dietitians to complete the methods, internship, and practicum requirements of their degrees.

Dental and Medical Care

Dental Health Partnerships: SCS Head Start has an exceptional partnership in both Sullivan and Cheshire County with a network of dentists, dental hygienists, and dental programs.

In the Spring of 2021, SCS Head Start embarked on a wonderful opportunity to take on the Dental Program with the funding received from the Monadnock United Way to provide dental services to its Head Start children in greater Cheshire County Head Start centers located in Ashuelot, Jaffrey, Keene, and Swanzey. In collaborating with Cheshire Smiles, SCS Head Start will provide education to the children on oral health and hygiene, complete a dental screening for the children to identify dental needs and will assist families to establish dental homes. Cheshire Smiles Certified Public Health Dental Hygienist also provides emergency treatments such as filling cavities, providing a dental cleaning and fluoride treatment only for those children who do not have an established dental home.

In Sullivan County, SCS Head Start partners with a Certified Public Health Dental Hygienist from Community Dental Care of Claremont/Sullivan County Dental Initiative. The CPHDH provides dental screenings, and referrals to ensure that every child has an established dental home.

Meeting Individual Health and Nutrition Needs: SCS Head Start committed to ensuring there were procedures and systems to support all children with health and nutrition needs and that follow-up is done timely and consistently. The program implemented **Individual Health Plans or Individual Nutrition Plans**, supported by each child’s health provider before children start school. This is ensured through collaboration and engagement of families.

Child Outcomes and Kindergarten Readiness

Southwestern Community Services, Inc. Head Start ensures positive child outcomes in many ways.

SCS Head Start Kindergarten Readiness Goals: SCS Head Start developed Kindergarten Readiness Goals in collaboration with the staff, parents, school partners, and the Policy Council members to promote readiness and to ensure future success upon entry into kindergarten. ***Please click on the 2022-2023 SCS Head Start Kindergarten Readiness Goals and Outcomes document to review the programs’ goals set for kindergarten readiness, as well as the child assessment data, for three and four-year-old children.***

The data shows program wide progress made by children before they enter kindergarten. SCS Head Start uses TS GOLD to assess children three times a year; in the fall, in the winter, and in the spring. The data is analyzed and is presented under each goal. Please review the charts for children’s progress made from fall to spring.

Staff Qualifications and Development: At SCS Head Start, all teachers have BA/BS degrees in Early Childhood Education (ECE) or related degrees with required credits in ECE or with their PRAXIS II in ECE.

Most full-time or part-time teacher assistants have at least an associate degree in ECE or related degrees. Five teacher assistants have BA in ECE, or related degrees and the rest of the teacher assistants have AA degrees in ECE or are enrolled in a degree program.

In addition to the (full time) teacher assistants, we also could hire nine (part time) teacher assistants, however due to staffing shortage observed in the State of New Hampshire and nationwide, we only had four teacher assistants at the centers.

Early Learning Outcomes Framework (ELOF) and Curriculum Connection: SCS Head Start Curriculum is research-based, comprehensive, developmental, and individualized. SCS Head Start uses the CREATIVE CURRICULUM as a guide to design the physical environment and uses CREATIVE CURRICULUM, “topic of studies” to support child growth and development.

SCS Head Start utilizes “TS GOLD,” which is also known as “Curriculum Imbedded Assessment” for assessing children three times a year, in the fall, in the winter, and in the spring in the required domains, domain elements, and domain indicators. TS GOLD is aligned with Creative Curriculum and Early Learning Framework (ELOF).

Children tell us a great deal of information about who they are, what they know, and how they think by their actions and language. Careful observations over time can reveal valuable information about children’s individual strengths, skills, knowledge, behavior, accomplishments, and difficulties. It can reveal not only what they know but also how they came to know it – their processes for thinking and learning.

SCS Head Start Data Collection System is designed to provide one unified approach for Teaching Teams to collect their observations of children Early Learning Outcomes Framework and to assist the Teaching Teams to accurately assess children in content areas of literacy, mathematics, science and technology, social studies, and arts as well as developmental domains including social emotional, physical, language, and cognitive development. The annual charts are created to demonstrate how SCS Head Start achieves the SCS Head Start Kindergarten Readiness Goals in each of those areas.

SCS Head Start utilizes Child Outcomes information for making ongoing quality improvements and planning staff training and development.

Positive Solutions for Children and Families (Pyramid Model or CSEFEL Center for Social and Emotional Foundations for Early Learning): SCS Policy Council and SCS Board of Directors utilized the Community Assessment to its fullest extent when SCS Head Start faced sequestration in 2013 that led to reducing the programs funded enrollment numbers in two county service areas. Later, when restoration of the lost funds became a reality, SCS Policy Council and SCS Board of Directors used the program data and data presented in the Community Assessment once more to focus on the priority areas. They decided to go with a “quality over quantity” plan, which also ensured future financial stability for the program. The plan included to extend the day of services for 170 children and families, elongating the program year by three weeks as well as providing ongoing Parent and Family Engagement opportunities that were in addition to what is currently offered to families, such as parent training or any family engagement activities. With that in mind, SCS Head Start made a commitment to bring CSEFEL Family Training program and began a pilot program to offer the program for selected families in each center this year with the plan to roll it out to all families at each site, program wide next school year.

Positive Solutions for Children and Families or Pyramid Model or CSEFEL is an evidence-based set of training materials for scientific approaches and practices that focuses upon increasing intentionality in teaching of the desirable social behaviors to young children. It is also known as Pyramid Model for supporting social and emotional development of children birth-five. The Center for Social and Emotional Foundation for Early Learning (CSEFEL) is a national center that focuses on promoting the social and emotional development and school readiness of young children and offers resources and tools. It is a comprehensive classroom management system based on brain research, developmentally appropriate, best practices, and child development information. Because this approach is so effective and is backed by research, many states have become Pyramid/CSEFEL States, meaning that at the state level there exists financial back up, support, and expectations for programs implementing Pyramid Model/CSEFEL approaches. New Hampshire became the 28th Pyramid State in 2016.

After piloting Positive Solutions for Families, we proceeded with the full implementation with families at each site and in the classrooms for supporting the social and emotional development of children.

In the beginning of the 2019-2020 school year, SCS Head Start hired an in-house, Behavior Specialist, who supports the social, emotional, and behavioral health of all 170 children enrolled in the program through providing observations and developing Individual Behavior Plans for children with intense behavioral needs. This also includes in-house play-therapy for those children who may benefit from such intervention and support.

In the 2020-2021 school year, under the Behavior Specialist/Disabilities Services Manager's responsibility, two Social and Emotional Coaches supported all teaching teams' efforts to support the Head Start children and help them to implement the CSFEL Framework (Pyramid Model) to fidelity. All three also work closely with families and support the family's efforts to support the social and emotional development of their children.

In the 2021-2022 school year, SCS Head Start began using the TPOT, which is a Pyramid Model embedded Assessment Tool to support teachers and improve their competencies.

As a part of our efforts to promote healthy social skills and to proactively teach safe, appropriate behaviors to children, SCS Head Start also developed "The Cool Rules" to teach children the desirable social behaviors. They are:

1. **Be Safe**
2. **Be Kind**
3. **Take Care of Our Things**
4. **Make it Better**

Parent and Male Involvement

Fathering Initiatives: SCS Head Start has recognized the importance of father and male involvement and, for the last 18-19 years, actively recruited men to be part of the everyday school environment.

From this first awareness SCS Head Start has reached a point today where male involvement is expected in our classrooms.

Family Engagement Opportunities: SCS Head Start offers Parent and Family Engagement opportunities at each center. These activities are above and beyond the parent trainings and other supports provided for family empowerment and self-sufficiency.

Transition Activities

Southwestern Community Services, Inc. Head Start has been implementing a successful transition plan with public school partners in seven communities. The transition plan is implemented starting in September and is ongoing as it brings public school teachers and principals together with Head Start teachers of graduating students and their parents to ensure a smooth transition to public school. This year, SCS renewed its commitment to school readiness goals, reaching out to our local school partners to align them with local school requirements and State of New Hampshire Early Learning Standards. Some of the highlights of the activities include:

- Transition Breakfast and Luncheon – Individual centers invite principals, kindergarten teachers, school nurses, guidance counselors to have breakfast and lunch at the Head Start centers with the children.
- Kindergarten teachers are invited to visit Head Start centers to read to the children.
- Kindergarten enrollment and Screening information are shared with families.
- Transition Meetings for Parents - Kindergarten teachers are invited to the Head Start centers to meet with parents, talk about expectations, and provide information.
- Visits are scheduled to the kindergarten center.
- Individual Head Start centers host Kindergarten Connection nights for Head Start parents, children, and school partners.
- Kindergarten Readiness/Home School Connections are sent home, bi-monthly, with curriculum related activities, parental education, and books about transitions (many about going to a new school).

Federal Review & Financial Audit

Federal Review: From November 15, 2021 to November 19, 2021, the Administration for Children and Families (ACF) conducted a Focus Area One (FA1) monitoring review of the Southwestern Community Services, Inc. Head Start program. The OHS (Office of Head Start) Monitoring Review Report confirmed SCS Head Start was in compliance with all the requirements of the Head Start Program Performance Standards (HSPPS) and Public Law 110-134, *Improving Head Start for School Readiness Act of 2007*.

Financial Audit: The Agency’s Consolidated Financial Statements prepared by Leone McDonnell & Roberts, PA consistently show no findings or questioned costs in accordance with 2 CFR section 200.516(a).

Additional Program Information

- SCS Head Start received “the Centers of Excellence” nomination by the Governor of New Hampshire in the school year of 2009-2010.
- SCS Head Start was awarded the “Early Learning Mentor/Coaching” a competitive Grant from the Office of Head Start in 10/2012.

- After a competitive process, SCS Head Start was awarded the Five-Year Head Start Continuation Grant in May 2020.
- SCS Head Start employed 43 individuals for the 2022-2023 school year.
- All six SCS Head Start centers are accredited and have remained accredited in the past 20+ years by the National Association for the Education of Young Children (NAEYC).
- 100% of all 8 teachers have bachelor's or master's degrees. 7 out of 8 SCS Head Start teachers have bachelor's degrees in early childhood education. One teacher has a bachelor's in non-related degree, however with PRAXIS II of Early Childhood Content Knowledge.
- Enrollment Information: Funded enrollment is 170. Total cumulative enrollment is 131.
65.03% of families have income below 100% of the federal poverty line (93 families).
8.39% of families (12) are in receipt of public assistance such as TANF and SSI.
0% of children are in foster care.
1.4% of families have status as homeless families (2 families).
3.5% of families are over-income (5 families).
13.29% of families (19) incomes are between 100% and 130% of the federal poverty line.
- The average "Daily Attendance" percentages for each month is as follows.
August 74%
September 75%
October 79%
November 78%,
December 76%
January 76%
February 76%
March 77%
April 79%
May 84%
June 83%

One of the major factors contributing to the program's low Daily Attendance is the program's overall low enrollment caused by the staffing shortage. SCS Head Start could not open two classrooms for the past two years due to workforce crises, thus the program was not able to enroll children to fulfill its commitment to serving 170 children and families.

Related to the staffing shortage, this school year, the program could only serve 10 out of 17 children at one of the Head Start centers, despite having the full enrollment of 17 there, which impacted the attendance.

Another reason that we experience lower daily attendance is due to the harsh and long New England winter conditions that continued through the end of April. It also included various sicknesses, specifically upper respiratory and stomach flu reported by the families.

- 73.43% of children (105) are up to date on a schedule of age-appropriate preventive and primary health care, according to the relevant state's EPSDT schedule for well childcare.
- 15.38%, (22) of children were diagnosed with any 17 chronic condition by a health care professional, regardless of when the condition was first diagnosed.
- Of these, 77.27%, (17) of children received medical treatment for their diagnosed chronic health condition.
- 90.21% of the children (129) received continuous, accessible dental care provided by an oral health care professional which includes access to preventive care and dental treatment.
- 77.62% of the children (111) received preventive care during the program year.
- 4.9% diagnosed as needing dental treatment. (7 children)
- 4.2% received dental treatment. (6 children)
- 100% of all enrolled children completed all Medical Screenings.
- 100% of the children (143) were covered by Health Insurance at the end of the enrollment Year.
- 90.91% of children (130) had continuous accessible health care at the end of the enrollment year.
- 17.48% of the total cumulative enrollment (143), 25 children, served at SCS Head Start, were children with identified disabilities who had Individual Education Plans (IEP'S) and received related services and support.
- SCS Head Start has worked to maintain signed Interagency Agreements with all School Administrative Units to collaborate on supporting and identifying children with disabilities and transitioning them to kindergartens. These 14 School Administrative Units are:

SAU 1- Conval Regional School District	SAU 71- Lempster School District
SAU 6- Claremont School District	SAU 91- Surry School District
SAU 24- Stoddard School District	SAU 92- Hinsdale School District
SAU 29- Keene, Chesterfield, Harrisville, Marlborough, Marlow, Nelson, and Westmoreland	SAU 93 Monadnock Regional
SAU 43 – Newport School District	SAU 94- Winchester School District
SAU 47- Jaffrey/Rindge School District	SAU 96- Sullivan school District
SAU 60- Fall Mountain School District	SAU 102 Goshen School District

SCS Community Assessment Summary:

Southwestern Community Services Head Start (SCS) continues addressing the greatest community need by providing **high-quality comprehensive services** for three to five-year-old children of low-income families in both **Cheshire and Sullivan Counties**.

SCS Head Start will continue to offer high-quality, linguistically, and culturally responsive, comprehensive Head Start services inclusive of education, health, nutrition, disabilities services, behavioral health, and social services in Ashuelot, Claremont, Jaffrey, Keene, Newport, and Swanzey communities.

SCS Head Start completed a comprehensive Community Assessment in February 2015 and completed another one in 2019. The 2019 Community Needs Assessment was completed at the end of 2019 and was published/distributed in early 2020 (about a month before the pandemic started).

Both assessments incorporated information derived from local municipality, county, state, and federal sources in the program’s service areas in both Cheshire and Sullivan counties and captured the health, demographics, needs, and trends of its 38 municipalities. The subject areas included population profile, employment, education, housing, income, nutrition, and healthcare. Additionally, Head Start families and staff were surveyed regarding their opinions and thoughts around what they perceived as to be working well for them in their communities as well as any gaps of services, resources, and community needs. **[The analysis of the information collected from various data sources was then used to draw the picture of the community needs in the two-county areas. This process once more reinforced the need for comprehensive child and family services that SCS Head Start provides for eligible families within its’ service area.]**

2019 Cheshire County and Sullivan County Community Needs Assessment Compiling data from multiple sources and surveying stakeholders, this report provided information on significant

economic and social issues. It is intended as a resource for improving health, education, and overall well-being in Cheshire and Sullivan counties.

Three major themes emerged from the data collected. First, poverty is increasing in both counties. Second, our population is aging rapidly, and, finally, mental health has emerged as a growing problem.

According to the data source, the total population has increased by 4.29% in the report area.

According to the data source, American Community Survey 5-year data, an average of 16.6% children (ages 0-4) lived in the state of poverty during the survey calendar year in the report area. The poverty rate for children living in the report area is also more than the State of New Hampshire average.

The poverty rate according to the same data source estimates for children (ages 5-17) living in poverty was 11.7%, which was also higher than the State of New Hampshire average of 9.40%, however less than national average of 19.50%. Total population in the SCS's report area for ages 5-17 was 16,311.

According to the same data source utilized for the 2019 SCS Community Assessment, the total population for children, ages 0-4 in the report State was 5,441. The total number of children in poverty living in the two-county area was 903. Out of 903, 616 lived in the rural communities of Cheshire County. 287 of the children in poverty lived in Sullivan County.

Out of 400 surveys sent out, 200 responses were received when conducting the SCS Community Assessment. The survey work included SCS' Board of Directors, clients, Head Start families, and consumers, funders and community partners, and SCS' staff. The survey began with a core question regarding the most pressing needs facing our communities. Each respondent was asked to mark the top three needs. Sixteen community needs were listed.

The top six identified community needs, in order, included the following:

- Enhanced Mental Health Services
- Safe, Adequate, and Affordable Housing
- Living Wage and Adequate Employment
- Affordable Health Care
- Substance Use Recovery Programs
- Affordable and quality early care and education

The 2019 Community Needs Assessment led the agency to develop its strategic plan. Recognizing that COVID-19 would change the data for community needs, the new CEO, Beth Daniels, took on as her first task to bring in a consultant to assist with a “refresh” of the Community Needs Assessment in the fall of 2021. The goal was to consider all emerging needs and changes experienced due to the pandemic. According to the data presented to the SCS Board of Directors on January 14, 2022, it was noted that the current mix of services closely matched the community's needs. While *Mental Health* was identified as the number one need, which included our families and households served, as well as staff, *Rental Assistance, Food*

Insecurity, and *Childcare* (as this became a challenge during the pandemic) were also noted as emerging needs during the pandemic.

SCS Head Start

SCS Head Start Program Information & Kindergarten Readiness 2022-2023

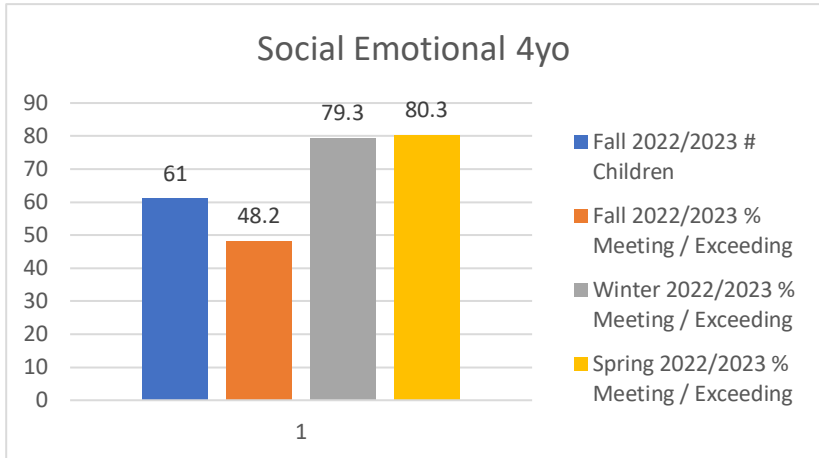

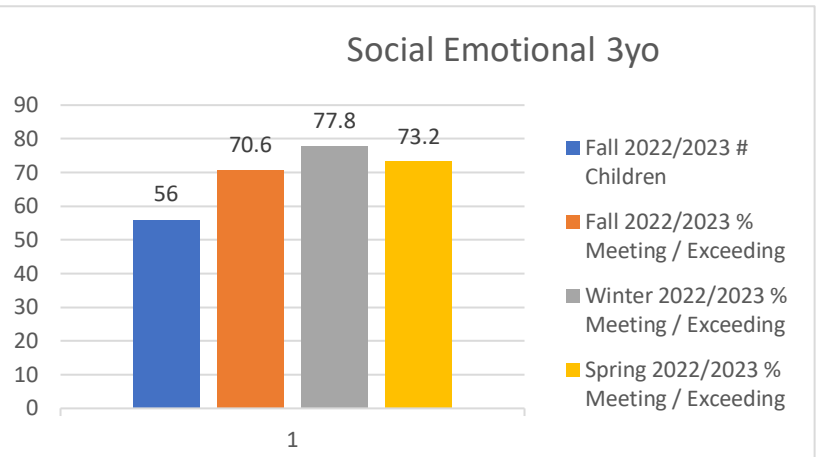

SCS Head Start is a well-established early childhood education program with seven NAEYC (National Association for the Education of Young Children) accredited Head Start Centers in two counties, a public-school collaboration, and a widely recognized and respected partnership with many community agencies including school partners. SCS Head Start is committed to meeting the diverse learning needs of all 170 children and getting them ready for kindergarten.

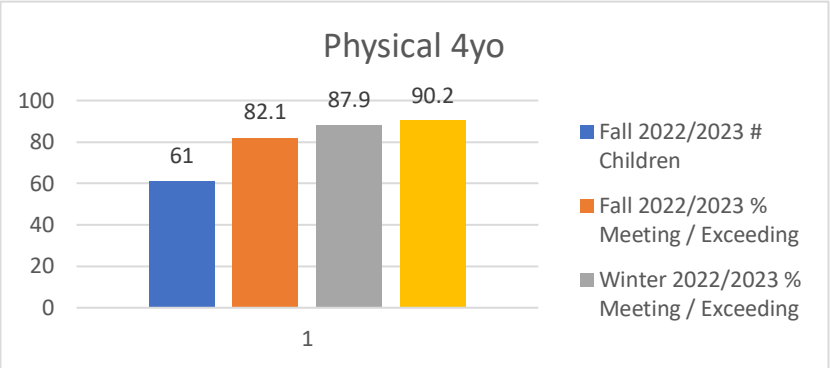

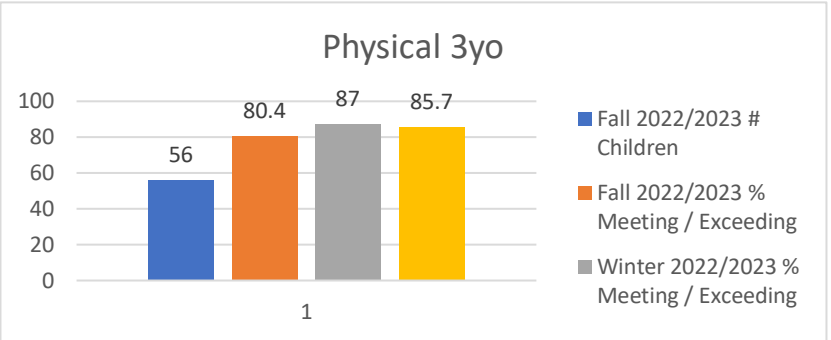

SCS Head Start assesses children in 5 domain areas three times a year and aggregates and analyzes the assessment data at multiple points in combination with other program data and in partnership with parents and families to help each child in the program learn and reach his or her potential.

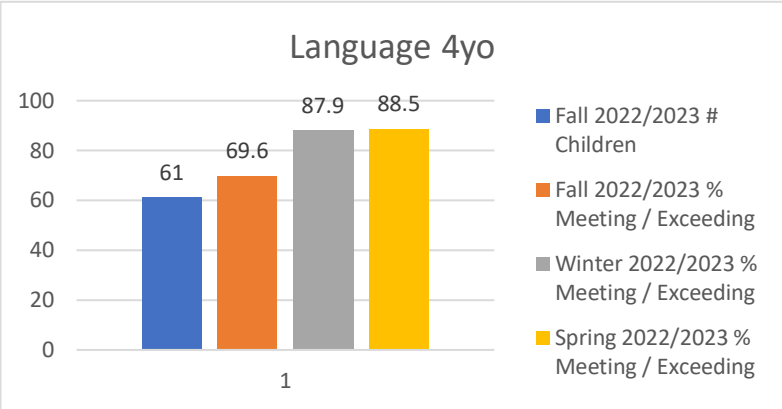

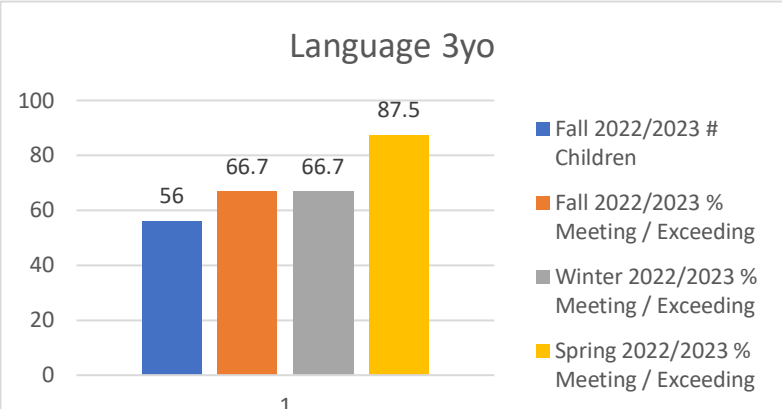

SCS Head Start aggregates and analyzes data for three-year-old and four-year-old children in each classroom, as well as program-wide to make the necessary program improvements needed to better support school readiness. SCS Head Start is committed to putting continuous efforts into improving teacher-child interactions in each classroom and determining priorities for improvement as well as putting extensive efforts into providing opportunities for engaging parents and families in supporting each child's school readiness.

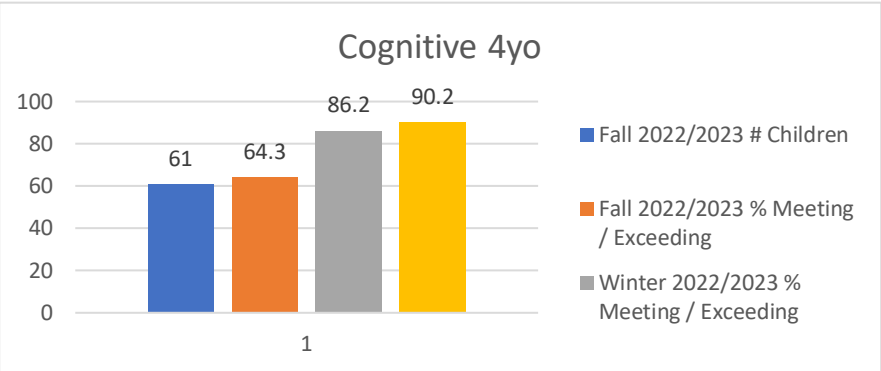

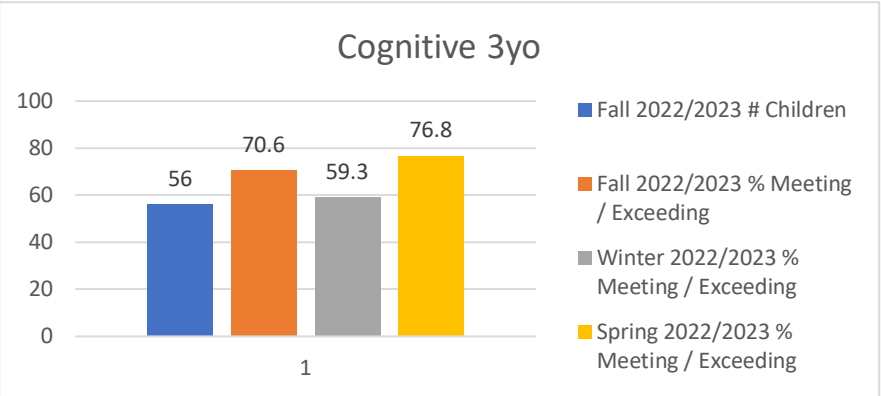

All children who are five years old before September 30th are eligible to enter kindergarten in the State of New Hampshire as determined by the local school districts. SCS Head Start has identified expected attributes/milestones for children to achieve at the point of kindergarten entry.

Southwestern Community Services Head Start has developed the following School Readiness Goals using guidance provided by the Office of Head Start and input from staff, families, and community and school partners. The goals are reflective to five essential domain areas of the Head Start Child Development and Early Learning Framework as aligned with Teaching Strategies GOLD™ formative assessment and will serve as a guide for SCS Head Start educators and families to provide the best experiences for our young children and to help them get ready for kindergarten.

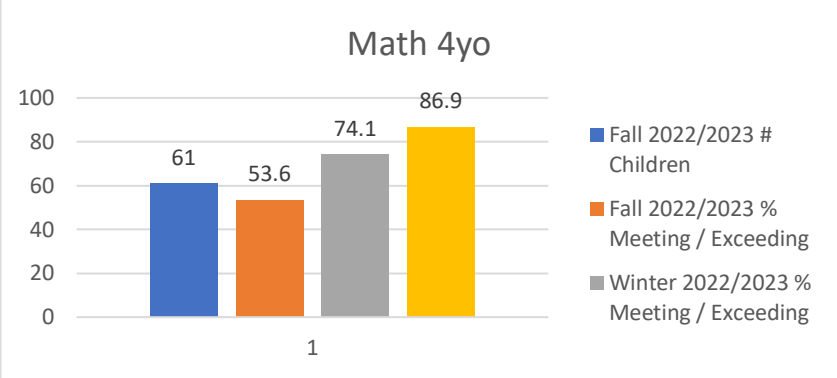

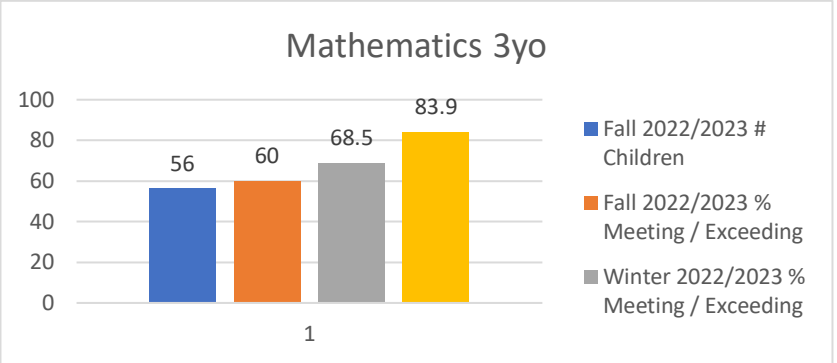

<u>School Readiness Goals (HS)</u>	<u>TS Gold Objectives</u>	<u>Strategies and Implementation</u>	<u>Outcomes</u>
<p>Domain: SOCIAL-EMOTIONAL</p> <ul style="list-style-type: none"> ● <i>Children will interact with peers and adults in socially acceptable ways; share, take turns, and seek assistance when needed.</i> ● <i>Children will express his or her wants, needs, thoughts, and ideas, and self-direction.</i> ● <i>Children will recognize, regulate, and name their own emotions.</i> ● <i>Children will identify health and safety practices and demonstrate increasing independence with basic self-care tasks.</i> 	<p>2.
